## POLITICAL SCIENCES AND INTERNATIONAL RELATIONS

Language of Instruction: English

English Preparatory Year: Compulsory Score Type: EW

### What is Political Science and International Relations?

- Political Science and International Relations is a field of study that focuses on the basic dynamics of global politics ranging from psychology to history, from sociology to economics and focuses on the analysis of political, economic and socio-cultural relations between states and other global actors.
- Within the Department of Political Science and International Relations, it is aimed that students will be able to analyze the global politics by providing students with theoretical knowledge in areas such as political psychology, power and legitimacy, ideologies, political systems, democracy, human rights, politics and society, political economy, civil society, public opinion and pressure groups, political parties, electoral systems, nation-states and non-state actors, security, geopolitics, foreign policy analysis, diplomacy, identity, cooperation, international system, international law, international organizations, globalization, disarmament, environmental issues, ethnic conflicts, energy, and migration.

### Our Goal

- The Department of Political Science and International Relations aims to train experts who can interpret the global network of relations that is increasing today within a conceptual framework and follow current developments. In this context, it is aimed to raise individuals who have a good command of world and Turkish issues, proficiency in foreign languages, adopt an analytical mindset, criticize and analyze, constantly renew themselves, are entrepreneurial and willing to question, adopt ethical values and are prone to joint work and democratic participation.

### Areas of Interest

- Psychological, historical, economic, and sociological origins and reflections of political, economic, and socio-cultural developments on a global and national scale

- Discussing new areas of interest such as political psychology, neuropolitics, and biopolitics
- Operation and role of the international system, international law, and international organizations
- Examining national and international security issues, terrorism, war and peace, conflict resolution, and mediation
- Examining political systems, political ideologies, democracy, election strategies, and voting behavior
- Analyzing the impact of international political economy on global and national politics
- Changing diplomacy and the diverse global actors in the process of globalization
- Analyzing the political, economic, and socio-cultural structure of various regions such as the Middle East, Europe, the United States, China, Russia, and their impact on world politics
- Discussing the issue of migration that have been significant in global politics
- Analyzing the impact of digitalization on global politics and security

### Work and Career Opportunities

- Due to their knowledge of political, economic, psychological, historical and sociological issues at the global and national level, graduates of the Department of Political Science and International Relations are preferred in specialist and managerial positions in various fields such as: Foreign Service Officer in the Ministry of Foreign Affairs and Consular Officer, Administrative Law Judge, Various public institutions such as TİKA, YTB (Presidency for Turks Abroad and Related Communities), Yunus Emre Institute, and other public organizations, Private companies, International organizations, Non-governmental organizations (NGOs), Research centers, Media organizations, Research companies.
